

## Diagnostic Tools

The following tools are available from Alacritech to aid in diagnosing network problems that may be related to Alacritech drivers.

### Contents

#### aladiag

**Applies to:** [Both SNP and ATCP drivers.](#)

aladiag is a general diagnostic tool for both the SNP and ATCP type Alacritech drivers.

Download the following: [aladiag documentation](#) and [aladiag.zip](#)

#### anp

anp is an Alacritech tcp performance measuring tool derived from Microsoft's internal test tools npr and nps (which are in turn derived from ntttcp which is derived from the public domain tool tcp).

Download the following: [anp documentation](#) and [anp.exe](#)  
Source code available by request at 877.341.8267

#### atkarp

**Applies to:** [Non-SNP aware drivers only.](#)

atkarp displays the Alacritech arp cache.

Download the following: [atkarp documentation](#) and [atkarp.exe](#)

#### atkroute

**Applies to:** [Non-SNP aware drivers only.](#)

atkroute displays the Alacritech route table.

Download the following: [atkroute documentation](#) and [atkroute.exe](#)

#### slicutil

**Applies to:** [Non-SNP aware drivers only.](#)

slicutil is a command line tool for configuring Alacritech drivers

slicutil documentation is not yet available.
